SUMMARY

Motivated B.Tech Computer Science graduate with strong foundation in programming and Data Science. Completed multiple academic projects and internships, demonstrating ability to learn quickly and work effectively in teams. Seeking to apply technical skills and enthusiasm to contribute to innovative software solutions.

INTERNSHIP

Python Developer Intern

Sep 2025 – Feb 2026

Durbhasi Gurukulam Private Limited

Backend Developer specializing in scalable API development, AI-powered applications, and containerized deployments. Experienced in MySQL, Docker, Git, and automation, with hands-on expertise in LLM integration, chatbot systems, and ML-driven solutions. Passionate about building efficient, production-ready, and intelligent software systems.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Nov 2022 – May 2026

Malla Reddy Institute of Technology, Hyderabad

CGPA: 8.67

SKILLS

Python • Machine Learning • Artificial Intelligence • HTML/CSS • SQL • MongoDB • Git • Problem Solving.

• Algorithms/Models: Random Forest, Decision Trees, Support Vector Machine (SVM), XGBoost, K-Means, PCA.

PROJECTS

SmartTask – End-to-End Task Management Application

[\[GitHub Link\]](#)

Technologies: Python, FastAPI, MySQL, React.js, JavaScript, REST API, JWT Authentication, Docker, Docker Compose, SQL, HTML, CSS, Git, GitHub, Uvicorn, Postman

Description: Developed a full-stack task management application using FastAPI, React, and MySQL with JWT authentication and Docker-based deployment, enabling secure, scalable, and production-ready task management.

Petrol Price Forecasting System Using AutoKeras

[\[GitHub Link\]](#)

Technologies: Python, AutoKeras, TensorFlow, Flask, React.js, SQLAlchemy, SQLite/MySQL, REST API, Pandas, NumPy, Scikit-learn, APScheduler, JavaScript, Bootstrap, Axios, Docker, Git

Description: Engineered an intelligent petrol price forecasting system using AutoKeras AutoML, enabling accurate short- and mid-term fuel price predictions.

Developed scalable Flask REST APIs and an interactive React dashboard for prediction access and visualization.

Implemented automated data pipelines, scheduled retraining, and model performance tracking using RMSE, MAE, and MAPE.

CERTIFICATIONS

- | | |
|---|----------|
| • Data Science & AI Masters: From Python to GenAI Udemy | Nov 2025 |
| • TCS iON Career Edge – Young Professional TCS | Apr 2025 |
| • Data Visualization: Empowering Business with Effective Insights TATA | Apr 2025 |
